From Darwin to Hitler: Evolutionary Ethics, Eugenics and ...

From his description of the Lebenskampf (struggle for life), it is clear that Hitler used it as a synonym for the struggle for existence, just as Darwin himself did. In the beginning of his Second Book Hitler argued that the instinct for self-preservation and reproduction is unlimited for biological organisms, but space is limited.

Was Hitler Influenced by Darwinism? | California State ...

Darwinism played a key role in the rise not only of eugenics, but also euthanasia, infanticide, abortion and racial extermination. This was especially important in Germany, since Hitler built his view of ethics on Darwinian principles, not on nihilism.

From Darwin to Hitler: Evolutionary Ethics, Eugenics and ...

An imagined connection between evolutionary theory and the Holocaust relies on the fact that Hitler's conception of national struggle and supremacy was rooted in a type of social Darwinism, an obsolete political theory that holds that the concept of "survival of the fittest" applies to nations, races, or ethnicities.

Hitler and evolution - RationalWiki

Weikart writes that the moral antecedents of Nazi genocide rest in the Darwinism that swept the German academies nearly a century before the Nazi period. The road from Darwin to Hitler however, is crooked with many twists and turns. Many early Darwinists would have recoiled at Nazi brutality.

Book Review -- From Darwin to Hitler: Evolutionary Ethics ...

Weikart does say that the path from Darwin to Hitler is tortuous and convoluted, but he is of the opinion, that the idea of "Darwinian natural selection" and its implications, even a perverted/distorted form of it, ultimately led, one way or another, to Hitler and Nazi ideology.
