Since 1991, the edited book series Studies in Perception and Action has appeared in conjunction with the biennial International Conference of Perception and Action (ICPA). ICPA provides a forum for researchers and academics who share a common interest in ecological psychology to come together, present new research, and foster ideas towards the advancement of the field.

Studies in Perception and Action XII: Seventeenth ...

Studies in Perception and Action VIII includes broad coverage of the most current advances in research on perceiving and acting, including contributions from researchers in Australia, China, Japan, Europe, and North America. It addresses cutting-edge research in dynamics and human movement, recent progress in ecological approaches to perceiving and acting, and substantially extends our knowledge of just how rich a source of information the world is across a wide range of modalities.

Studies in Perception & Action VIII: Harry Heft, Kerry L ...

Frequent action video game players often outperform non-gamers on measures of perception and cognition, and some studies find that video game practice enhances those abilities. The possibility that video game training transfers broadly to other aspects of cognition is exciting because training on one task rarely improves performance on others.
