by Theo Parker This short article introduces the ecological thought of Felix Guattari. I suggest that Guattari's holistic delineation of three interconnected ecologies is a productive place to begin in thinking about contemporary ecological issues. Following on from this, and away from traditional environmental discourse and politics, I argue that aesthetic encounters with film hold...

### **Reframing ecological thinking; Felix Guattari ...**

Extending the definition of ecology to encompass social relations and human subjectivity as well as environmental concerns, The Three Ecologies argues that the ecological crises that threaten our planet are the direct result of the expansion of a new form of capitalism and that a new ecosophical approach must be found which respects the differences between all living systems.
